Wind!
Water!
Waves!

Water played an important role in Anke Pankokes live. All began with her first sailing lesson when she was a child.

Since then she is fascinated from the the dynamics of wind, water and waves. And she admires all sailors that succeed in making wind, water and waves to their own element.

Now she has transcribed these observations as well as her own experiences into her drawings, acrylic-paintings and acryliccollages.

Additionally you can see acryliccollages of the the location where most of the presented works were painted: Borgudden (Säffle), the summerhouse of the artist.
